WHAT MUSIC DO YOU PLAY?

It's a question I often get asked, and my answer is always the same – “It depends on the music you and your guests love to enjoy” because it's YOUR big day, not mine!.....I want to deliver an atmosphere that you and your friends and family will love - It really is all about YOU!

So tell me the songs and genres you love the most, it's also important to know what you dislike so I can focus on the perfect songs for you. This allows me to match the right floor filling hits to you and your guests setting your reception up for a night to remember!

VIEW SONGS LIKE YOUR BEST FRIENDS.

We all have different ones right? Look at it this way: Imagine walking into your wedding reception with your newlywed by your side, and not knowing anyone in the room – would you feel a little isolated? Probably, and if I play unknown songs or weak hits your friends will wonder what on earth is being played, feel disconnected to your wedding because they do not love the music and they may leave early as a result.

THE 'NICK CHATTEN' WAY.....

Now imagine walking into the same room but this time every single person is a good friend you know and love; they greet and hug you making you feel excited and really glad to be there, because these are the people, your favourite friends that you want in your life and around you. These are the feelings and atmosphere you will create by playing the big hits that everybody knows and loves! The end result is your guests will feel connected, have more fun and create memories they will treasure forever.

WOW FACTOR LED DANCE FLOOR

A dramatic white or black gloss starlight LED dance floors will add that much needed sparkle to your wedding making you feel like a prince and princess for the day!

WEDDING BREAKFAST BACKGROUND MUSIC

Having superb music played during your meal offers a brilliant way to put guests at ease, paving the way for sparkling conversation.

You may want to create a mood of elegance and timeless romance, then perhaps 'Ratpack' may be right for you, alternatively you may want a more contemporary feeling of love at your wedding so today's well known ballads may suit you better.

Not sure what to go for?...a very popular solution is to start classy and formal then move onto the fun and relaxed styles as you work your way through each course of your mouth watering wedding breakfast. I call this a gradient of genres that builds anticipation and excitement in the minds of your guests, pointing to your eagerly anticipated party later on in the evening.

I'LL PROVIDE YOUR FOUR PART CEREMONY MUSIC

PRELUDE:

This chapter of your marriage is all about love and anticipation for your imminent wedding, so create an atmosphere of romance with music of your choice as your guests gather. As a guideline, up to 30 minutes of mood-setting music will be needed for your prelude.

PROCESSIONAL:

Imagine having your flower-girls and bridesmaids precede your aisle entrance to their own piece of music then allowing me to blend-in your 'Exclusive Entrance Theme' as you float up the aisle. Personalise it even more by picking the most poignant part of your song to start from eg; 1 minute & 37 seconds in from the start, I'll then softly fade your theme as you reach the front.

SIGNING THE REGISTER:

At this point the mood and atmosphere is still very much about love and romance so select love songs of your choice as you sign and pose for photos. Choose personal tracks that played an important part in your relationship as this will movingly connect your emotions to the occasion. Three songs will be required.

RECESSIONAL:

At this point you are making the transition into the celebratory phase. Imagine how elated you will feel, glowing inside as you return down the aisle finally married to the love of your life! Select an uplifting hit to mark the moment, but above all make it a song that is personal to you both so you can really radiate through your celebration.

DANCING ON THE CLOUDS

Make your 'First Dance' extra special by 'Dancing on the Clouds'. Dry Ice is surely the way to amaze your guests on your wedding day and make your photos & videos look amazing! The low lying fog effect lasts long enough for your first & second dances with a thick pillow of pure white cloud right at your feet. Remember you will only ever get one chance to capture that 'First Dance' on film, so do it in style.

MOOD LIGHTING

Using LED up-lighters can set the mood and transform a whole room to any colour theme or choice you want, the colour you choose will paint the whole room from top to bottom with the most incredible ambience. It's classy, modern and incredibly elegant and with a choice of over 500 colours we can match your colour scheme perfectly and guarantee to bring the WOW factor to your wedding or function.
